

AUTOMATED BUSINESS PROCESSES WITH MORPH

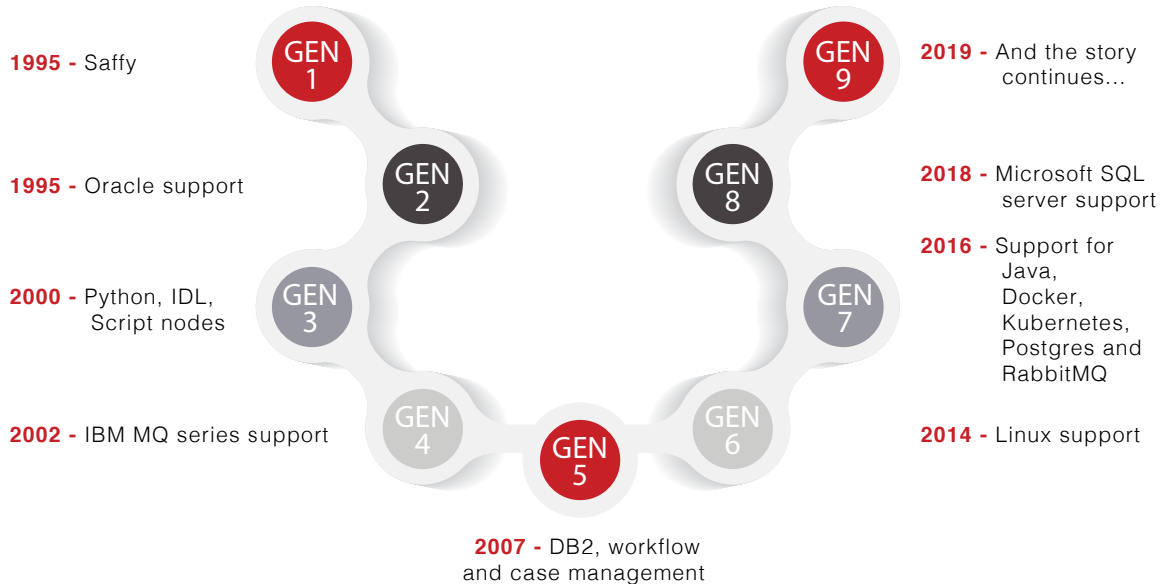

After almost 25 years of refinement BBD's core engine - Morph, caters to your complex orchestration, workflow and case management needs.

Morph's track record includes a myriad of successful projects involving SWIFT payment routing, online banking channel integration with back-end legacy systems, identity management, billing and high-volume real-time trading in the sports betting industry. We've kept this tried and trusted engine current and have continually added new capabilities to ensure that it meets the needs of your organisation.

Why Morph for your organisation?

- › Comprehensive business automation
- › Self-healing systems
- › High scalable with autoscaling
- › Proven reliability and built-in metrics
- › Seamless integration of legacy systems
- › Automated orchestration allows for process streamlining
- › Tightly integrated DevOps pipeline
- › Standard support to workflow exception management
- › Supports microservices architecture built on persistent messaging infrastructure

Contact us

Our belief in building software that works is embedded in our company ethos. This has defined our culture of delivery over the course of the 30 plus years we've been in the industry. If you're interested in partnering with BBD contact Kevin Staples.
